

Update as of March 26, 2020

### **Envision Imaging IS OPEN to serve your patients**

Please continue to send us your referrals both STAT and Non-STAT. Our centers will schedule your patients as soon as they want to be seen. We have 6 centers in the DFW metroplex dedicated to caring for patients. You can trust our team to schedule your patient at the most appropriate and ideal center.

#### **How to reach us:**

All Center phone and fax numbers are active. Please continue to send your referrals via EMR, phone, fax, or through our Physician Portal (PAL). Our mission is to serve our patients with love and compassion and we are committed to serving.

### **Your Patient's SAFETY is Our HIGHEST Priority**

We are caring for your patients by limiting their exposure to others:

- ✓ **Patients can wait in their cars until their exam; notification will be sent and they can go directly to their scan and exit after completing**
- ✓ Online registration means your patient completes their paperwork prior to arriving
- ✓ We have personal protective equipment (PPE) protocols in place to protect your patient for the duration of their visit
- ✓ Updated patient communication via text, e-mail, and appointment alerts
- ✓ Please have X-Ray patients call prior to walking in so proper screenings can occur

Please visit [www.enrad.com/masks](http://www.enrad.com/masks) to see updates on how Envision Imaging is making a difference!

*It is our honor to see patients that are given a script for necessary diagnostic imaging with the assumption that the ordering provider has followed local and federal laws around emergent care and stay at home guidelines.*
